# Foils

This is a process that gives a mirror like finish to a print or part of a print. We can print up to 2 foil colours in a print. Available in a range of colours.

ART REQUIREMENTS	PROS	CONS
☐ A vector art file from Illustrator or CorelDraw (.eps, .ai, .cdr) gives the best results and is much easier for us to work with.	☐ Great contemporary look.	☐ Needs to be hand washed and line dried to preserve the look of the foil. When washed normally and dried in the drier it will only last about 3 washes.
		☐ No PMS matching.
